MEMORANDUM FOR: Chief, Administrative Staff, ICS

FROM:

[Redacted]

STAT

Director, Office of Program and Budget Coordination

SUBJECT: Hewlett-Packard Color Plotter

1. Action Requested: Procurement of a Hewlett-Packard Color Plotter (Model 7221C).

2. Background: For the past several years ODP has been upgrading the color graphics facilities offered to its customers. These facilities include software packages, color graphics terminals, color printers, color plotters, etc. Of these facilities, the Hewlett-Packard (HP) Color Plotter (Model 7221C) produces both color transparencies and charts for an \$8,000 investment. The HP Color Plotter connects to a Tektronix Graphics Terminal like that installed in 4N10.

3. Requirement: That you purchase the HP plotter which would offer IC Staff components the capability to produce color graphics on a small scale. Within OPBC, the device would be used to produce a variety of color graphics for the NFIP budget process.
